Cleanliness Drive Week

At the crack of dawn on October 16, 2023, the earnest students of National Public School, Hosur Road, gathered under the azure sky, their hearts brimming with determination and a shared purpose. In the solemn moments of the morning assembly, these young minds, inspired by the vision of the Swachh Bharat Abhiyan championed by our esteemed Prime Minister, stood together, pledging their commitment to a cleaner and greener tomorrow. With unwavering resolve, they embarked on a transformative journey, becoming the ambassadors of cleanliness in their community.

Fueled by the spirit of this pledge, the students fervently took to the task at hand, marching towards the litter-strewn Hebbagodi Road with a sense of duty etched on their faces. Armed with gloves and bags, these dedicated volunteers worked tirelessly, their hands diligently collecting garbage and pulling out weeds that marred the beauty of their surroundings. Their efforts focused keenly on the areas adjacent to their school, resulting in the meticulous gathering of two bags of trash, laden predominantly with paper cups, gutkha packets, food wrappers, and used banners.

This noble initiative went beyond the mere physical act of cleaning. It was a beacon of awareness, shining brightly in the hearts of the neighborhood residents. The actions of these students were not just a cleanup drive; they were a poignant reminder to everyone about the intrinsic value of responsible waste disposal. Through their actions, the students echoed the urgent need to preserve the sanctity of our environment and called upon everyone to uphold the collective responsibility of keeping our surroundings pristine and unblemished.

Cleanliness Drive Week

Take the oath
to make
India clean.
It is now or never.

Cleanliness is a good
habit that we
need to follow.

Cleanliness is a sign of
development.
